*** How to find your Credit Card Security Code**

If you have a Visa, MasterCard or Discover, turn the card over. In the signature box or just to the right of it, you will see a series of 19, seven or three digits. If you have 19 digits, the first 16 are your card number and the last three the security code; if you have seven, the first four digits are the last four digits of your card number and the remaining three digits are the security code; and if you have only three digits, those are the security code.
